

Acer Supplier

Acer is committed to improving working conditions and driving a sustainable supply chain. To further improve the transparency of Acer’s work in the supply chain, we are providing a list of Acer’s production suppliers. These suppliers represent 95% of Acer’s procurement expenditures for final assembly and component manufacturing in 2021. We believe that improved transparency is one of many steps that can be taken to improve positive working conditions and environmental performance across the supply chain by spurring a collective focus and harmonization of efforts between stakeholders and enabling multi-stakeholder engagements on social and environmental aspects in the electronics supply chain.

Final Assembly Suppliers

<u>Supplier Name</u>	<u>Sustainability Information</u>	<u>Site Address</u>	<u>CDP participation</u>	<u>GHG 3rd Party Verification</u>	<u>GHG reduction target setting</u>	<u>ISO 5001 EnMS</u>
